RESIDENTIAL DESIGN PROJECT

Sinks and Faucets

History- Fergusons

- Founded in 1953 by Charles Ferguson, Ralph Lenz, and Johnny Smither, the company began with a modest \$165,000 starting capital. Ferguson's first two locations opened in Colmar Manor, Md., a suburb of Washington D.C., and Birmingham, Ala., for the purpose of servicing smaller plumbing contractors.
- Ferguson is a company that has proven it can adapt to the times. The company's rich history and second-to-none customer service make it an industry leader, but its associates make Ferguson the company it is today.

Allied Kitchen and Bath History

- ♦ Allied Home Improvement Inc. was founded in 1984 by brothers Bill and Joe Feinberg. Renamed Allied Kitchen & Bath in 1985, and still at its current location in the Ft. Lauderdale area; now, with a new luxury showroom on the original location site, the company's growth continues.
- ♦ By offering the highest quality products and materials, excellence in workmanship, and design creativity, in tandem with forward-thinking and a focus on family and safety, Allied turns remodeling dreams into realities.

Refrigerators

Bosch History

The 1980s bring along a whole new lifestyle – with higher expectations towards everyday life than ever before. Including home appliances. The signs of the time are promptly acknowledged by Bosch, where a wide range of functions were soon to be combined in one appliance. Not really surprisingly, the first built-in cooker with integrated microwave and multipurpose oven and self-cleaning technology was made by us.

Kitchen Aid History

KitchenAid is an American home appliance brand owned by Whirlpool Corporation. The company was started in 1919 by The Hobart Manufacturing Company to produce stand mixers; the "H-5" was the first model introduced. The company faced competition as rivals moved into this emerging market and introduced its trademarked silhouette in the 1930s with the model "K", the work of designer Arens. The brand's stand mixers have changed little in design since, and attachments from the model "K" onwards are compatible with the modern machines.
