You have been working for an Interior Design/Architectural firm as an Assistant Designer for a little more than a year and have been showing great promise in moving toward being one of the firm's Associate Designers. As a reward for doing such superior work, your boss has decided to hand you an interior construction project and test your knowledge and abilities regarding construction documents.

## Assignment 8 – Reflective Ceiling Plan

To create a Power and Signal Plan, you must create a Reflective Ceiling Plan. Be sure to include all of the following interior architectural elements:

- \_\_\_\_\_/10. All walls that touch the ceiling should be shown as a continuous solid line.
- \_\_\_\_\_/5. Note all ceiling heights using the correct symbol.
- \_\_\_\_\_/10. Draw in all soffits as dashed lines along with any light coves.
- \_\_\_\_\_/10. Note any varied texturing in the ceiling (i.e., exposed wood ceilings) as greyscale (color 8 or 9)
- \_\_\_\_\_/10. All built-in cabinets, appliances, and plumbing fixtures in greyscale (color 8 or 9) to show location below the ceiling.
- \_\_\_\_\_/10. Note all permanent objects (i.e., staircase, fireplaces, etc.) in dashed lines grey scale (color 8 or 9) to show their location below the ceiling.
- \_\_\_\_\_/10. Note all existing ceiling fixtures with a continuous solid line that have been noted (Existing to remain on Demo Plan).
- \_\_\_\_\_/10. Note all Lighting systems with continuous solid lines
- \_\_\_\_\_/10. Dimension all lighting systems with continuous solid lines.

Standard Drawing Application:

- \_\_\_\_\_/5. Make sure that the Title Block is completed for this drawing
- \_\_\_\_\_/5. Do not forget the North Arrow.
- \_\_\_\_\_/5. This drawing requires a set of general notes

\_\_\_\_\_ / Total Point
