

Student Name:

Page | 1

You have been working for an Interior Design/Architectural firm as an Assistant Designer for a little more than a year and have been showing great promise in moving toward being one of the firm's Associate Designers. As a reward for doing such superior work, your boss has decided to hand you an interior construction project and test your knowledge and abilities regarding construction documents.

Assignment 1 - Create Cover Page

Objective: To help students understand the detailed intricacies of creating and the construction development of residential and Commercial interior spaces. This process is the most critical aspect of any interior construction project in a real-world scenario.

At this point, the student has been given the following information to insert on the Cover Page:

- ____/5. A Construction Legend,
- ____/10. A set of General Notes
- ____/5. An Index of Drawing list,
- ____/5. A Symbol Legend
- ____/5. Specific Line Types Symbol Legend
- ____/5. A PDF of the Existing Floor Plan

Students will be charged with locating the following information on their own.

- ____/20. Images of the property that could serve as a Site Plan.
- ____/20. Stacking Diagram, exterior rendering, etc. that would identify the property
- ____/5. Tittle information to include the flowing
 - Name of project
 - Address of Property
 - Student's Company Logo
- ____/20. Layout, Composition, and Clarity

Students will take the information gathered and aesthetically create a Cover Page. Please attempt to use what you have already learned in your fundamentals class regarding creative compositions.
